

Discovering Opportunity Every day

PAY IT FORWARD:

At DOE, we believe in promoting good will and economic growth within our community and beyond. We believe the way to do this is by paying it forward. April 28th has been named National Pay it Forward Day, but we thought why stop there?

We want to make an impact on our community with the resources we have available as an office equipment dealer so we have invested in high quality color printers. Every organization large and small has some need to print or make copies, whether's it's a church bulletin or a spreadsheet. We want to reward our customers, but also promote good will in the community, so it just makes sense for us to give our customers the opportunity to pay it forward, courtesy of DOE, but in their honor.

Goodness is the only investment that never fails.
-Henry David Thoreau

HOW IT WORKS:

When a customer purchases an A3 copier machine, we will give away a color printer to a company of their choice within their county-- no strings attached! It's that simple! There are no additional costs to the customer purchasing the equipment, nor are there any costs for the recipient of the printer.

DOE will deliver the printer, complete with a big red bow to the chosen company and install it in their office. Although the printer comes with no obligations, we do offer the opportunity to purchase service and supplies on an as-needed basis or you can sign up for an all-inclusive service contract to include toner, parts, and service visits for a flat monthly rate.
